

PRODUCT DATA SHEET

Product ID:
RGL6

Product Name:

Single Leg Elasticated Webbing
Lanyard & Shock Absorber

A general-purpose lanyard used when the operative is working from a static position connected to a fixed anchor point.

If movement between anchorages is required, a twin leg lanyard should be used (RGL9) to provide constant protection. The elastic in the lanyard reduces the amount of hanging slack, which helps to reduce trip hazards and entanglement.
